## IMPACT STORY

More than 250,000 Ngiemboon speakers in West Africa now have access to God's Word on their mobile phones. As mobile phone have exploded within the last 10 years, more than 650 million Africans now have subscriptions.

When Moise Yonta of Cameroon read Ngiemboon Scripture on his smartphone for the first time, he recalls, "I was so happy that I couldn't hide it!" Moise said. "Immediately I applied the lesson we learned by selecting a verse and sending it to my dear wife, and she was happy to receive it."

Thanks to ETEN and the DBL's partnership with YouVersion, Moise and millions of other smartphone users can access God's Word to experience His life-changing message in their own heart language.

Read more of Moise's story and watch a video clip capturing his reaction on **Wycliffe's blog**.
